

Unique characteristics

MORA CAVA I, mirror

Designed around a central idea of a minimal, unframed backlit mirror, mounted just 30 mm from the wall, Cava has an aura of its own. Its light can be switched at a touch from warm to cooler tones. The mirror itself has an anti-fog function and is safety foiled for peace of mind.

Available in circular or square versions and multiple sizes.

About the collection

A minimal design, with atmospheric backlighting, brings an extra layer of character to bathroom spaces.

Article number: 953004 **RSK:** 8879835
